

## Part.2: Log In & Set Up

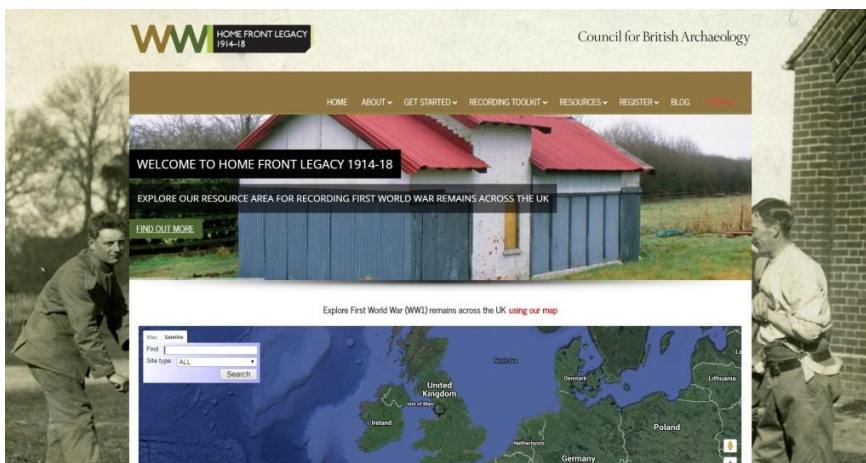

This handout accompanies the Home Front Legacy App: Part.2: Log In & Set Up Youtube training video

There are few simple steps you will need to take to access and set up the recording app.

### Register

The first step is to register your project at [www.HomeFrontLegacy.org.uk](http://www.HomeFrontLegacy.org.uk)

The main page of the website will look something like this-

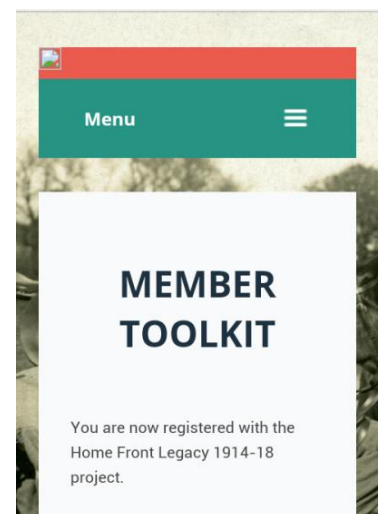

To register click the 'Register' tab in the menu.

You will need to provide some basic information to register; this allows the Home Front Legacy team to monitor the records submitted and also contact you if we have any further questions about your site.

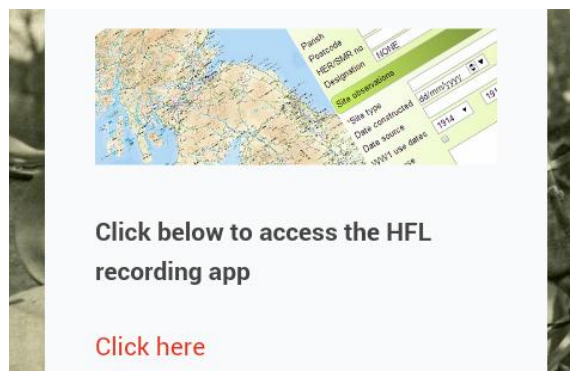

### Member Tookit

Once registered and logged in you will be able to access the Member Toolkit. This is where you can access the Home Front Legacy recording app and paper based recording forms.

## Access and Set Up

To access the app via the Member Toolkit scroll down to '**Click below to access the HFL recording app**', which is situated just below the map picture, and press the '**Click Here**' button. This will take you through to the Home Front Legacy recording app.

When you first access the app a pop-up will appear. It is important that you click 'allow' or 'okay' to enable the app to function correctly.

## Adding a Home Screen Link

If you are using a Mobile or Tablet device it is recommended that you create a home screen icon, or create a bookmark, at this stage.

This will allow you to quickly access the recording app when out and about. This is possible on Android and Apple devices if you are using the Google Chrome and Apple Safari browsers.

You are now set up and ready to go!

## Over to you

Register your project at [www.HomeFrontLegacy.org.uk](http://www.HomeFrontLegacy.org.uk). Have a go at accessing the Member Toolkit and setting up the Home Front Legacy recording app.
